From a Hondo Girl.

Denton, Texas, January 28, 1916.

Dear Readers of the Anvil Herald:—
Feeling that perhaps you would like to know something about the College of Industrial Arts, and what it means to a girl who comes here to go to school, I shall try to explain some of its purposes, and what it stands for. There are no other girls from our town attending here, I hope the editor will kindly give me a little space.

The College of Industrial Arts has this year been classed as first rank with the State University, and other colleges of this state. So a girl who is a graduate of this school receives the same standing as one who is a graduate of the State University. There are about seven hundred and fifty students here this year and there are almost sixty faculty members. The freshman class alone has just two hundred and fifty in it, of which I am one. There are two large buildings, one the Academic Arts building, where the literary work is done, and the other the Household Arts building in which industrial work is done. In this building is a large kitchen, where all of the girls assemble every morning for chapel services.

Several courses are given and each composed of literary, industrial and manual training work. There is a Household Arts course, Fine and Applied Arts course, Manual Arts course, the literary course, all of which require four years of college work before graduation. There are also other courses which may be completed in one year. The Home Makers, Vocational and Irregular are courses which may be selected. Music, both piano and voice, are specialties. Extension and voice are also stressed, and that they are worth mentioning.

There are two large dormitories, named Hall and the "Methodist" dormitory where a large number of girls stay. There are many girls who cannot stay in the dormitory, as there are good private boarding places near the college for them. By beginning of next year another dormitory, and a large dining hall will be erected, and it is hoped all girls can get room in this one. The north end side of the campus has a nice little cottage, fully equipped, where girls go and there receive lessons in learning to keep a home. There are two large greenhouses, where many beautiful flowers are grown. Several rooms are set off, in which contain pianos, where girls can take their music lessons. I am going to tell you something about the course which I am taking, that is the Household Arts course. It is one of the work which is taken under this course, and I have twenty-eight periods of forty-five minutes each a week. I have nine subjects not including two of physical training, which I have every week. These are English, history, cooking, chemistry, wood working, sewing and household accounts. In the Academy building there is a large library, which contains many useful books for home and research work.

And many others are things which are beneficial to a girl who attends the College of Industrial Arts.

Yours respectfully,
RUTH PETERSON.

Argument of Baptist Schools.

The Baptists propose to raise for their schools during the next four years \$250,000 of this amount is raised by March 19th of this year. Besides our University at Waco and Theological Seminary at Fort Worth we have in the state fourteen colleges and colleges. These schools are for the physical, mental, moral and spiritual development of our men and young women. We need to know that a number of Hondo are enrolled at these schools and we confidently expect that they will grow from year to year. Of our schools there is some interest and all of them are greatly improved and additional equipment. The present campaign was instituted to supply these needs. We are enlisted in the campaign every church, and every member of Baptist church in the state.

Then, the announcement that that F. Baucum of Waco will at the Baptist church next day night in the interest of the present campaign. Everybody is invited.

W. P. CARTER, Pastor.

MR. and MRS. HARM FRERICHS
at the time of their marriage.

Harm Frerichs.

No death has occurred in Hondo in many a day that caused the shock and profound sorrow as that of Hobby Frerichs. The shock owing to his unexpected demise, the sorrow because no man in this section was held in higher esteem than he by a legion of friends.

Harm Frerichs (or "Hobby" as his friends were wont to call him) was a product of Medina county; he was the youngest son of the late Rolf Frerichs, and was born at Quibbi, September 28, 1877, where a portion of his childhood days were spent. He moved to Hondo with his parents when nine years old, and continuously made his home here up to the time of his death, which occurred at his home here last Saturday evening at 10:00 o'clock.

He had been somewhat indisposed for a week or more from la grippe but no one, not even he himself, considered his condition in the least serious. In fact, so lightly did he regard his indisposition that he was on the streets as late as 10 o'clock last Saturday morning. The immediate cause of his death was heart failure, superinduced by la grippe.

On June 25, 1911, he was married to Miss Martha Schwope of Boerne who, with his aged mother, Mrs. Rolf Frerichs, three sisters, Mrs. And Schuchle, Mrs. Aug. Schuchle and Mrs. C. J. Bloss, and three brothers, John, Henry and Fritz Frerichs, all of this county, survive him. Beside his immediate relatives he leaves quite a number of more distant relatives who are deeply grieved over his untimely demise.

We venture the assertion that no man in the county was better known or had a greater number of staunch friends than Hobby Frerichs. Of a kindly disposition and generous to a fault, he made a host of friends and his death has come to them as a distinct personal loss, and his memory will be cherished by them for many long years to come.

At three o'clock Monday afternoon the body was laid to rest in the new cemetery, Rev. A. Falkenberg, pastor of the Lutheran church, officiating. Mr. Frerichs connected himself with that church in early childhood, and retained his membership in that religious organization to the hour of his death.

The funeral cortege was one of the largest ever assembled in Hondo, representatives from every town, village and community in the county, as well as several from out of the county, being present—all sorrowfully paying a last tribute of respect to a departed friend. The floral tributes that covered the newly made mound, the offerings of organizations and friends, were the most profuse and beautiful ever seen in the Hondo cemetery.

To the grief-stricken young wife deprived of her life mate, to the aged mother grieving for her youngest son, to the affectionate sisters and loving brothers bowed with sorrow over the untimely death of this loved member of the family, The Anvil Herald, in connection with an unlimited number of friends, extends sincerest sympathy in this, their hour of great bereavement.

W. P. Laughinghouse.

Died, at his home, about two miles southwest of Hondo, at 7:40 o'clock p. m., January 29, 1916. W. P. Laughinghouse, aged 55 years, 9 months and 20 days.

Notwithstanding the death of Mr. Laughinghouse was not unexpected it nevertheless caused a deep feeling of grief to overspread the community. For more than a year and a half his vitality was being sapped by that most insidious of all sickness—Bright's disease—and to his will power and determination, as much as to the untiring care of his physicians and nurses, can be attributed the prolongation of his life for the past year or more.

Decedent was born in Madison county, Alabama, April 9, 1860; he moved to Medina county in January, 1889 and has continuously made his home in this section ever since. On May 7, 1896, he was married to Miss Sadie Routt; to this union five children, one girl and four sons were born, all of whom besides his widow, one sister and three brothers, survive him. Besides those mentioned above he leaves quite a number of other more distant relatives to mourn his demise.

No man in this section probably had a wider circle of friends than did Mr. Laughinghouse. Of a lively, jovial disposition he made friends of all with whom he came in contact. Even ill health could not efface his good nature, and he never let his physical suffering cast a shadow over his friends, and he will long be held in affectionate remembrance by a host of sorrowing friends.

The body was laid to rest in the new cemetery at 4:00 o'clock Sunday afternoon, Rev. John M. Alexander, pastor of the Methodist church, and of which church Mr. Laughinghouse had long been a member, officiating. The large concourse of grief-stricken friends that congregated around the new made grave, despite the very inclement weather, to pay a last tribute of respect to the departed, was an eloquent tribute to the worth of Mr. Laughinghouse, both as a man and citizen.

To the disconsolate widow and fatherless children words of condolence are meaningless. To them time alone and the promise of a future re-union when there will be no more parting, is the only balm that can appeal to their wounded hearts.

Resolutions of Respect.

Whereas, it has pleased our Heavenly Father to call from our midst to her Heavenly Home our sister, Mrs. W. L. Marlin.

Resolved, that in the death of Sister Marlin our Church, and W. M. U. Society has sustained the irreparable loss of a devoted sister, her family a loving wife and mother.

Resolved, that while we feel our loss we humbly bow to the will of Him who doeth all things well, that we extend to the bereaved ones our sympathy and that we may all bow in humble submission to Him who careth for us all.

Resolved, that a copy of these resolutions be placed on the minutes of our W. M. U. Society, a copy sent to the family, and a copy furnished the Hondo Anvil Herald for publication.

MRS. F. W. BOHMFALK,
MRS. D. L. WILLIAMS,
MRS. LEE WARD.

In Memory of Mrs. Marlin.

It was with a shock of keenest pain we received the sad tidings of Sister Marlin's death; while at the same time we know that she has gone to a happier world than this, and is singing the songs of her Redeemer with many of our loved ones who have gone over the river before her, and were there waiting to welcome her into the Paradise of God.

Our deepest and most heartfelt sympathy go out to those of the home circle who miss her most.

May God help us all to live so that we may meet dear Mrs. Marlin on the other shore where there will be no more parting.

A FRIEND OF THE FAMILY.

Notice.

CONTRIBUTED.

At the Head of the Class.

The first and foremost aid to a busy man in office, workshop or home, The World Almanac, makes its New Year bow to a multitude of admirers, whose glad hands welcome it to its regular job. Those who have The World Almanac habit never lack a mental stimulus and are right up to the minute in things worth knowing. Those who know it not miss a fountain of knowledge. The 1916 volume records everything worth while that happened last year, not only a chronology of the war, election returns, crop reports, sporting events and statistical matter, but an abundance of fresh facts and features which mark the march of human progress. As a ready reference book The World Almanac is at the head of the class. Price 35c postpaid; cloth bound, 60c postpaid. Address The New York World, New York City.

Card of Thanks.

We take this means of thanking our many friends for their sympathy and kindness shown us during the illness and death of our beloved husband and father. We wish especially to thank the Senior class and others for the floral offerings.

Man Who Has Just Been Presented With New Baby Is Introduced to Owner of New Automobile.

At a smoker some time ago reference was made to the matter of favorite topics of conversation.

One afternoon Brown and Green were communing with each other in the lobby of a hotel, when a man with his countenance shining like great gladness headed their way.

"Here comes Madison," remarked Brown to his friend. "He has just been presented with a new baby and he will talk us to death in telling of its glories."

"That's all right," responded Green, glancing in the opposite direction. "I guess we will be able to fix the thing."

"Come again, old man," said Brown, wondering. "I don't get you."

"There's a neighbor of mine over there who has just bought a new automobile," explained Green. "We will introduce them and then take a slide."

VALUATION.

Wayne—Dinkly tells me that he is worth \$10,000.

Payne—Well, I believe he recently inherited that amount, but as a matter of fact he isn't worth ten cents.

Business "Scenery."

"How's the scenery around Jinxville?"

"Infinitely varied and changed every week," answered the suburbanite.

"You don't mean to tell me the eternal hills move from their bases and the streams depart from their ancient beds?"

"Certainly not, but I dare say Jinxville has the busiest lot of billboards of any town in the country."

Mild Criticism.

"These young men running up and down the streets in gymnasium suits while the thermometer hovers around zero are still in their right minds?" asked the Man from Mars.

"Oh, yes," answered his guide. "But I would hardly go so far as to say they are in their right clothes."

Domestic Experience.

"Do you believe life is a game of give and take?"

"Oh, yes," replied the meek looking man, "but you don't quite convey the idea."

"No?"

"I've found life a game of give in and take back."

Painful Demonstration.

"You say this motorist took you to a hospital after he ran you down?"

"Yes."

"Nothing could be kinder."

"Maybe not, but he didn't have to run me down, did he, just to show me he had a kind heart?"

Bargaining for the Feather.

"My dear, I wish you would learn to make a good cup of tea. It is not difficult to learn, and it would be a feather in your cap."

"If I learn will you buy me that willow plume?"—Louisville Courier-Journal.

Danger.

"Don't give your fancies that Chesapeake Bay dog of yours."

"Why not?"

"There might be trouble. Didn't I hear you say she was a duck of a girl?"

A Test Failure.

"A good soldier always keeps his head at a critical moment."

"Well, our captain lost his head just as we were about to charge."

"What made him do that?"

"A cannon shot took it off."

Helpful Words.

From a Hondo Citizen.
Is your back lame and painful?
Does it ache especially after exertion?

Is there a soreness in the kidney region?

These symptoms suggest weak kidneys.

If so there is danger in delay.

Weak kidneys get fast weaker.

Give your trouble prompt attention.

Doan's Kidney Pills are for weak kidneys.

Your neighbors use and recommend them.

Read this Hondo testimony.

Thos. McCall, carpenter, Hondo, says: "A short time ago I came down with an attack of kidney trouble. I had a severe backache so that I could hardly stoop over or lift anything. My back pained all the time and made it difficult for me to do my work. Doan's Kidney Pills, procured at Windrow's Drug Store, helped me right away and two boxes removed the trouble. I am glad to recommend Doan's Kidney Pills to others suffering from disordered kidneys."

Has Used Chamberlain's Cough Remedy for 20 Years.

Chamberlain's Cough Remedy has been used in my household for the past twenty years. I began giving it to my children when they were small. As a quick relief for croup, whooping cough, and ordinary colds, it has no equal. Being free from opium and other harmful drugs, I never felt afraid to give it to the children. I have recommended it to a large number of friends and neighbors, who have used it and speak highly of it," writes Mrs. Mary Minke, Shortsville, N. Y. Obtainable everywhere.

The Plaintiff doesn't look at it that way, but the Defendant always regards a hung jury as a Complete Vindication.

How Mr. Davis Got Rid of a Bad Cough.

"Some time ago I had a very bad cough," writes Lewis I. Davis, Blackwater, Del. "My brother McCabe Davis gave me a small bottle of Chamberlain's Cough Remedy. After taking this I bought half a dozen bottles but only used one of them as the cough left me and I have not been troubled since." Obtainable everywhere.

A man may overlook Opportunities. But he never overlooks an Opportunity to make a blamed fool out of himself.

For That Terrible Itching.

Eczema, tetter and salt rheum keep their victims in perpetual torment. The application of Chamberlain's Salve will instantly allay this itching, and many cases have been cured by its use. For sale by All Dealers.

RECIPE FOR GRAY HAIR.
To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

Do You Find Fault With Everybody?
An irritable, fault-finding disposition is often due to a disordered stomach. A man with good digestion is nearly always good natured. A great many have been permanently benefited by Chamberlain's Tablets after years of suffering. These tablets strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.

Trees, plants, flowers, they are always educators in the right direction, they always make us happier and better, and if well grown they speak of loving care and respect to it as far as is within their power; but in all this world there is nothing so appreciative as children—these sensitive, quivering creatures of smiles, sunshine, showers, and tears.—Luther Burbank.

Remons Enthroned.
Because meats are so tasty they are consumed in great excess. This leads to stomach troubles, biliousness and constipation. Revise your diet, let reason and not a pampered appetite control, then take a few doses of Chamberlain's Tablets and you will soon be well again. Try it. For sale by All Dealers.

We all dread a bodily paralysis and would make use of every contrivance to avoid it, but few of us are troubled about a paralysis of the soul.—Epictetus.

A heavy cold in the lungs that was expected to cure itself has been the starting point in many cases of disease that ended fatally. The sensible course is to take frequent doses of Ballard's Horehound Syrup. It checks the progress of the disorder and arrests nature to restore normal conditions. Price 25c, 50c and \$1.00 per bottle. Sold by W. H. Windrow.

Grant me to become beautiful in the inner man, and that whatever outward things I may have may be at home with those within.—Plato.

When the bowels become irregular you are uncomfortable and the longer this condition exists the worse you feel. You can get rid of this misery quickly by using Herbine. Take a dose on going to bed and see how fine you feel next day. Price 50c. Sold by W. H. Windrow.

The shortest and surest way to live with honor in the world is to be in reality what we would appear to be.—Socrates.

A child that has intestinal worms is handicapped in its growth. A few doses of White's Cream Vermifuge destroys and expels worms; the child immediately improves and thrives wonderfully. Price 25c per bottle. Sold by W. H. Windrow.

The wisdom of the wise and the experience of ages may be preserved by quotation.—Benjamin Disraeli.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless chili Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the liver, drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Mystery.
"I've been all over de world, mum," said the tattered tourist. "For a little breakfas' I'll tell you how de other half lives."
"I'm not curious to know," replied the angular woman. "I've got six children and a worthless husband, and I haven't found out yet how we live."

Jealous.
"Is Higgins a reformer?"
"The worst kind."
"What do you mean by 'the worst kind'?"
"There are objectionable as well as praiseworthy reformers. Higgins is one of those who hate graft because they never had a chance at it."

Odd State of Affairs.
"It's rather odd when you think of it."

"What is?"
"Why, my nearest relative lives eighty miles away and my most distant relative only about eighty feet."

Busy Campers.
Asker—Do much hunting on your camping trip?
Tellit—Quite a bit. Had daily hunts for the dishcloth, frying pan, can opener and soap.

One Careful Motorist.
June—Bob drives his car very carefully since Belle accepted him.
Ethel—Yes; Bob knows if he loses his automobile license he'll lose his Belle, too.

A HOT ONE.

Boarder—I don't think the city water is at all good. It has a whitish appearance this morning and tastes something like milk.

Landlady—That glass contains milk, sir, and I trust you will remember that your board was due yesterday.

One of the Symptoms.
"Are you and Miss Gadder still at outs?"
"I'm afraid so. She still pretends that she doesn't recognize my voice when I call her over the telephone."

Boss of a Laundry.
"What is your occupation, Rastus?"
"The manager of a laundry, sah, an' makes a right comfortable livin'."
"What is the name of your laundry?"
"Hannah Maria Johnson, sah."

Unprofitable Farm Practice.
The man who burns his straw and leaves the manure lie under the eaves of the barn to leach away will probably never get rich at farming.

To Drive Out Malaria And Build Up The System
Take The Old Standard GROVE'S TASTELESS chili TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents.

The better part of every man's trifling is that which he gives himself.—James Russell Lowell.

Constipation.
When constive or troubled with constipation take Chamberlain's Tablets. They are easy to take and most agreeable in effect. Obtainable everywhere.

Most men think instinctively and therefore cannot speak with exactness.—Samuel Johnson.

Gas in the stomach or bowels is disagreeable symptom of a torpid liver. To get rid of it quickly take Herbine. It is a marvelous liver stimulant and bowel purifier. Price 50c. Sold by W. H. Windrow.

The fellow who never needs them is the fellow who always has friends.

A scald, burn, or severe cut heal slowly if neglected. The family that keeps a bottle of Ballard's Snow Liniment on hand is always prepared for such accidents. Price 25c, 50c and \$1.00. Sold by W. H. Windrow.

Get your principles, and the rest is a matter of detail.—Napoleon I.

Piles Cured in 6 to 14 Days.
Your druggist will refund money if PAIN-EX-TRIMENT fails to cure any case of itching, bleeding or protruding Piles in 6 to 14 days. First application gives Ease and Rest. See.

Thought takes a man out of servitude to freedom.—Emerson.

The Quinine That Does Not Affect The Head
Because of its tonic value, it is called LAXATIVE. It does not cause nervousness nor bring on a headache. Remember the full name and name of the manufacturer, E. W. GROVE, 25c.

Let us do what honor demands.—Racine.

THE KITCHEN CABINET

If each man's secret, unexpressed care were written on his brow,
How many would our pity share
Who have our envy now?

And if the promptings of each heart
No artifice concealed,
How many trusting friends would part
At what they saw revealed.

EGGLESS DISHES.

When eggs are expensive it is a relief to find good things which usually call for eggs prepared without them.

Oatmeal Dainties.—Cream one cupful of butter with one cupful of sugar. Dissolve a teaspoonful of soda in a cupful of sweet milk and add to the butter and sugar, then stir in six cupfuls of rolled oats. Add a teaspoonful of grated nutmeg, a half teaspoonful of cinnamon, and a fourth of a teaspoonful of cloves. Mix these with a little flour, add a cupful of raisins and sufficient flour to handle. Flour the hands and make into cakes the size of a silver dollar. Bake in a slow oven until brown. These are cakes which keep well.

Bread Sponge Cake.—Take two cupfuls of brown sugar, one cupful of lard, three cupfuls of light bread sponge, two cupfuls of seeded raisins, two cupfuls of flour, one tablespoonful each of cinnamon and allspice and a half teaspoonful of cloves. Add a teaspoonful of soda dissolved in one-half cupful of coffee. Mix the ingredients and let rise a half hour. Bake one hour in a slow oven. This will make a large loaf or two small ones.

Eggless, Butterless, Milkless Cake.—Boil together three minutes a cupful of sugar and water and a half cupful of lard, two cupfuls of raisins, an eighth of a teaspoonful of grated nutmeg, a teaspoonful of cloves and a pinch of salt. When cool add two cupfuls of flour, a cupful of molasses, a half teaspoonful of baking powder, a teaspoonful of soda, dissolved in a little water. Bake forty minutes. This makes a chewy cake which the children especially enjoy.

Cream Spice Cake.—Take a cupful of sour cream, one cupful of brown sugar, one teaspoonful of soda, a teaspoonful of baking powder, a pinch of salt, one-fourth of a tablespoonful each of ginger, allspice and cloves, one-half teaspoonful of cinnamon. Stir with flour to make a drop batter and bake in a moderate oven.

GARNISHES FOR SOUP.

It is often the tasty garnish which takes the soup out of the common into the unusual.

Almond Balls.—Pound a dozen almonds to a fine powder. Beat two eggs light, season with salt and pepper, add the almonds, half a teaspoonful of minced parsley and three-fourths of a cupful of flour sifted with a teaspoonful of baking powder. Mix and roll into very small balls and drop into the boiling soup to cook for five minutes before serving.

Marrow Balls.—Take a piece of marrow the size of an egg, add a cupful of crumbs, moisten with cold water, add two eggs unbeaten and shape into small balls. Add to the boiling soup and cook very gently two minutes.

CROUTONS.—Trim crusts from bread and cut in half dice. Toast in the oven and fry in deep fat. If toasted in the oven, spread the slices with butter before cutting in dice.

Egg Custard.—Beat three eggs and add half a cupful of highly seasoned beef stock. Butter a small pan and pour the mixture into it. Set the pan in another of warm water and place in a moderate oven for half an hour until the custard is set. Cool and cut in squares and add to the soup just before serving.

Soup Balls.—Roll cracker crumbs, mix with butter and make into firm balls the size of a marble. Drop in the soup when ready to serve.

Quenelles.—Take small bits of meat, finely chopped, mixed with crumbs and bound with egg, shape into balls, dip in egg and crumbs and fry in deep fat. Add to the soup when serving.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

Made My Life Worth Living

"I feel it my duty to tell others what Chamberlain's Tablets have done for me," writes Mrs. L. Dunlap, of Oak Grove, Mich. "I have suffered with pains in my back and under my shoulder blade for a number of years, also with a poor appetite and constipation. I tried all of the remedies that I heard of, and a number of doctors, but got no relief. Finally a friend told me to try Chamberlain's Stomach and Liver Tablets. I got a bottle of them and they soon helped my stomach; by their gentle action my bowels became more regular. Today I feel like praising them to all who suffer as I did, for they have cured me and made my life worth living."

WE NEVER CLOSE

MATERNAL INSTINCT IS ALIVE

Not Necessarily Abandoned by Women Who Have Chosen to Pursue a Career.

We often hear that women used to be more maternal than they are now. The difference was that they had larger families and were compelled to do more work about the house, because modern household conveniences were then wanting, asserts Dr. Mary Kent Isham, a successful New York physician. The fact of a large family is not necessarily an indication that there is much maternal feeling in the mother. The maternal instinct is found in women who want children—whether they have them or not—and who occupy themselves preferably in ways which deal with the young.

The majority of single women and of women with careers do not lack the maternal spirit, but they are wanting in a certain recklessness which would enable them to accept the wrong husband or go in for what has been called "unbridled motherhood." They are perhaps trained into too great self-control and caution. Others are too intense and passionately maternal to marry. They must have whole crowds of children with whom to deal, like the old woman in the shoe. The husband is a secondary consideration. A large number of women who are engaged in social service and who, for various reasons, have been deprived of homes of their own, or find the duties in their homes too limited, are spending their generous helping of maternal energy in a larger social field.

SWEEPS DUST FROM RECORDS

Automatic Cleaner for the Phonograph That Will Save Much Time and Labor.

An automatic cleaner for phonograph records, invented by Joseph W. Pitcher of Washington, D. C., has just been patented. It consists of a ring that fits around the record, an arm extending downward therefrom just behind the needle, and a brush made of alternate layers of bristles and felt. The bristles engage the surface of the record first, removing dust from the lines, and the felt sweeps small particles out of the needle's way.

SHOOK PEARLS FROM GOWN

One Woman at Least Who Believes That Tight Styles Are Strictly All Right.

Persons in the rose room of the Astor, one night recently, were interested when they heard a pretty woman with diamonds glistening on dainty hands say:

"The pearls have gone—the string snapped in two."

She wore a coat with a moleskin collar, the New York Herald states. Her husband suggested that she take off her coat. She then, tugged on the end of a string and brought forth a sad looking affair—six pearls left at the end of the necklace. After standing up once or twice and engaging the attention of a waiter she brought forth a handful of pearls by the time her husband returned from a telephone call.

"Good thing this dress was tight," she laughed.

They proceeded to count the pearls before they ate soup and it was the consensus that three pearls had strayed from the string.

Again the pretty woman stood up, shrugged her shoulders. Result, one more pearl. Two were missing. They ate their dinner, not forgetting the mishap, and started out of the dining room in Indian order, the woman first, then the husband, then the waiter who had aided in picking up pearls, and finally a head waiter. The waiters had orders to keep their eyes open for pearls.

Would the woman tell her name? No.

TO PROLONG LIFE OF GLASS

Simple Arrangement Which Requires Only a Quantity of Stout But Pliable Wire.

Cups are often hung in china closets or in cupboards by hooks, thus prolonging their lives by keeping them out of harm's way. A device for securing the same safety for glasses should, it would seem, also meet with popular approval.

A device has been placed on the market which will meet with much favor. It is very simple and can be made at home if one will but secure some stout though pliable wire. The wire is fastened to the wall with a screw or staple and then twisted to the shape shown in the sketch.

Vain Hope.

"Everybody says I'm light on my feet, father," said the gilded youth.

"Umph," replied the disappointed parent, who didn't raise his boy to be a dancer. "I wouldn't go so far as to wish you had been born clubfooted, son, but I do wish your head was heavy enough to get as a sort of drag to your feet."

The Man Who Fails.

The man who fails is the sort of a chap who is always looking around for a snap;

Who neglects his work to regard the clock;

Who never misses a chance to knock.

He is grouchy and slow when work begins;

When it's time to quit, he jokes and grins;

He's always as busy as busy can be.

When he thinks the boss is around to see.

He believes that a "pull" is the only way

By which he can ever draw bigger pay;

And he sulks and growls when he sees his plan

Upset by the "push" of another man.

He's on the job when he draws his pay;

That done, he soldiers his time away.

While the men who tackle their jobs with vim

Keep pushing and climbing ahead of him.

For the man who fails has himself to blame,

If he wastes his chances and misses his aim;

He'd win if he'd use his hands and wits.

The man who fails is the man who quits.

—Charles R. Barrett.

Crop Conditions.

Crop conditions in Harris, Ft. Bend, Wharton, Jackson and Victoria counties, week ending January 21: According to observation and information there has been more land broken and plowed in the counties named this year than before at this time, especially in Victoria and Jackson counties and that portion of Fort Bend county contiguous to Rosenberg and Beasley. Fully three-fourths of the land in Victoria county has been turned this year, and many farms will be cultivated this year that were cultivated last year. The commercial interests are co-operating with the farmers and urging decrease of cotton acreage and increase of the diversified area.

Upshur county: There will be as much or more diversified crops planted this year than last and especially more attention paid to farm live stock and peanuts. Some oats has been planted and considerable plowing, but the weather has been somewhat unfavorable.

The onion acreage in Zavalla county will be slightly increased over last year, but not more

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; unless cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

than 75 per cent of the seed will germinate. The first carload of spinach for the north was shipped on the 14th. More attention is being given to rotation of crops and the raising of cattle and hogs.

Plenty of feed and food crops have been raised and gathered in Franklin county. The yield of all products, except cotton, was good, that staple maturing not more than one bale to five acres. More hogs have been raised than ever before, but not nearly enough. Considerable small grain has been sown; not much fall plowing for corn yet. The weather has been cold, cloudy and damp. Business conditions good.

Conditions in Denton, Grayson, Collin, Rockwall, Tarrant, Dallas and Ellis: Wheat is looking well indeed, maturing about 80 per cent, with the late crop 75 per cent. The increase in acreage over the area named is about 15 per cent. Livestock is looking well in all sections, with plenty of feed harvested.

Crop conditions in Camp county December 18 good. Corn, 20 bushels per acre; cotton, one bale to 5 acres; peanuts, 90 per cent; sweet potatoes, 95 per cent; Irish potatoes, 80 per cent; hay crops, 90 per cent; ribbon cane, estimated yield of the county, 100,000 gallons. Weather conditions wet and cold. Business good.

Crop prospects in Taylor county were very good until very recently when the farmers became very much depressed on account of the lack of rain. Freezing weather has hurt winter wheat.

Throughout Shackelford and neighboring counties the farmers are taking much interest in the work of exterminating the pests, especially the rats. In some of these counties the rats have destroyed many thousands of dollars worth of grain, and have committed great depredation on poultry.

Name Your Farm!

OCCASIONALLY we get a letter from a farmer on stationery on which is printed his own name and the name of his farm. In some cases we find on the margin, briefly stated, what is being made a specialty of on that farm.

This looks like business, and demands attention at once, for it catches the eye.

The editor of your county paper always stands in need of a bushel of potatoes, a sack of water-ground meal, or some such farm product, and would be glad to swap you some nice printed envelopes and paper to match for these things.

It would pay you to do some trading with this man, who is doing a lot in his way to help you, so next time you are in town talk it over with him. Before giving the order talk it over with the wife and family, and decide on an appropriate, catchy name for your farm and then—live up to it.—President Charles S. Barrett in National Field.

A Distinctive Reason

What is the chief reason for the superiority of Royal Baking Powder?

There are several good reasons, but there is one which distinguishes Royal from other baking powders.

This reason, which every woman should know, is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

There is no alum nor phosphate in Royal Baking Powder.

What do you know about the GRANT-SIX?

Now in its
SECOND
successful
season.

Do you know that the Grant Six is the pioneer low-priced SIX—the first SIX to sell below one thousand dollars?

Do you know that Grant Six has established itself as one of the most remarkable cars of the year?

That in spite of our best efforts and constantly increasing production, at no time has it been possible to keep pace with the demand?

That the new Grant Six—which we are now showing—has the largest, handsomest body of any car below a thousand dollars?

Do you know that the Grant Six has a valve-in-the-head motor of exclusive design—not a stock motor—that is one of the quietest, smoothest most powerful motors built.

Throttles down to 11½ miles per hour. Speeds up over 50.

This motor has established wonderful economy records. Owners everywhere average over 20 miles to the gallon of gasoline—many get over 28. Do you know that Grant true cantilever spring suspension makes Grant Six one of the easiest riding cars in the world?

That the Grant Six has achieved leadership solely by giving excess VALUE—in the motor—in the chassis—in the body—in the equipment. All the flexibility, all the smoothness, all the virtues of the SIX at its best are conspicuous in the Grant Six.

When you know these facts you will be eager to own a Grant Six. Better order early.

THE KITCHEN CABINET

O Home, so true to us, so often slighted in return, be lenient to them that turn away from thee and do not haunt their erring footsteps too reproachfully.—Dickens.

In the love of home the love of country has its rise.

SOME HEAVY MEAT DISHES.

The cuts which is one of the cheap is very good when nicely cooked. Take two or three pounds, remove the tough skin and spread the meat with a well-seasoned force meat, using bread crumbs, herbs, parsley, minced onion and salt and pepper. Roll up to keep in shape. Have of mixed vegetables, celery and turnip. Place bottom of a shallow bak the meat on top with just or to cover; add a blade of three or four cloves. Cov and cook slowly for four the meat frequently igror in the pan. When ve the meat and vegetables ish and thicken the gravy ned hour. Strain the gravy meat removing the cloves before serving.

—This is a good way to beef. Take a pound and a half of beef from the shin cut it in slices and roll in flour. Put in a little bacon fat, and add to the same a couple of cups of brown fat to add slowly two cups of water and stir until boiling. Add two onions salt and pepper and finally a tablespoon of Worcestershire sauce. Continue the cooking until the meat is tender. Sprinkle with chopped parsley and serve.

Beef in Casserole.—This is another method of cooking meat that is inclined to be tough. Take two pounds of the shin or round, wipe it carefully and lay in a casserole. Cover with a can of tomato, add two bay leaves and salt and pepper to season. Cook in the oven for two hours. Dish up the meat, thicken the tomatoes with flour and butter cooked together and serve the meat with potato pancakes. The acid of the tomato softens the tough fibers of the meat as does vinegar.

Time which strews a man's hair with silver, sometimes fills his pockets with gold.

Live and learn; nearly die and learn, and we learn quicker.—Dickens.

HELPFUL THOUGHTS.

Ink can be removed from any fabric with fresh milk if quickly applied. Blood spots on woolen may be easily removed by rubbing the spots with dry starch. This absorbs the blood, and the cloth when dry may be brushed, freeing the starch from the cloth.

Before polishing a stove soap the hands well with a good laundry soap, filling the nails with the soap, then dry and the hands will not be at all stained when the black work is done.

A bar of laundry soap moistened to a lather rubbed over the back of the olecloth that slips and slides on the table will keep it firm without the use of tacks.

Salt shaker tops which have become rusted on may be removed by soaking the tops in a little vinegar. The acid dissolves the rust and the tops will then unscrew.

Cut hot gingerbread or cake with a fork. This makes each piece light and fluffy, whereas a knife used will spoil the cake, making a heavy streak where it is cut.

Use a little kerosene in the cleaning of windows, adding a teaspoonful to a pail of soapy water. Also use it in cleaning the bathtub, kitchen sink, linoleum, wash basin and the rollers of the clothes wringer.

Newspapers may be used in many ways to lighten work. Cut in small squares and hang from a convenient hook. Use the pieces to rub off the stove, wipe out a greasy dish, or on which to set a smoky kettle. They save utensils in dressing chickens and preparing vegetables, fruits and nuts; they protect the sink drain if used to wipe out greasy dishes before washing. If dampened and torn in bits may be used to keep down dust sweepings. When tightly twisted they make good kindling for fires, and good packing for a homemade fireless cooker.

To keep a kitchen cookstove clean an ordinary school eraser sprinkled with kerosene is a fine improvement over the brush which just changes the position of the dust.

THE REAL AND ONLY

By IZOLA FORRESTER.

When you stand for hours at a ticket office in an elevated station, you get to know your regular people. Besides, Larry had the inquisitive romantic sense, and he often wondered whether some day the Girl, the real and only, would walk up and ask him for a ticket, and maybe he'd be absent-minded and let her get by without recognizing his fate.

And after all, it was Marty who noticed her first. Marty took the tickets and could see everybody up and down the platform. One night about 5:45, as a train pulled out, Marty strolled over and said: "He was right on time tonight, wasn't he?"

"I missed it," said Larry. "What is it?"

"She's been waiting here regular and frequent for three nights now, and he comes at 5:45. Some girl, believe me, Larry."

The next night Larry watched for her. When she came to buy her ticket—it was She! He didn't have to be told twice. All he did was look at her. She was slender and lissome. Somewhere Larry had read about girls who were lissome and winsome and the kind that just took the heart out of you without asking.

For three weeks or more Marty and he watched the progress of her romance. Neither one approved of the man. He was too young and sure of himself, too nonchalant, Marty said. That was the word. Nonchalant meant you didn't give a rap whether she was there to meet you or not. Sometimes he was late, but she never was. And finally, when the 5:45 Harlem express pulled in one night, she saw him through the window with another girl, and he didn't get off that night.

She must have been crying, Larry reasoned it out afterward. The steps were icy that night anyway and slippery, but when she turned around to go down then to the street she fell, and it was Larry who reached her first and carried her back to a bench in the warm waiting room.

"I'm not a bit hurt," she faltered. "Only shaken up a little bit. I can go home."

Whereat, with great emphasis on the impersonal business responsibility he felt, Larry told her he got off at six and would see that she reached her home safely. And Marty whistled as he saw them board the uptown train together. By the time he left her at her door up on Eighty-sixth street, near Madison avenue, they had made wonderful strides in acquaintanceship.

All the way back to his room, Larry said her name over, Alice Carlson. Perhaps she had inherited that blonde spun-gold hair from some Norse ancestor, he thought, and her rare, clear coloring.

Marty was the first to notice the veering of the wind of romance. She failed to appear on the platform for the 5:45 Harlem express. Several times the young man in gray got off and looked about, but she was not there, and he seemed troubled. Then came a night when he waited around until the 5:10, which Larry always took, and she saw her.

And, just as he approached, Larry tucked her under his lee, so to speak, and put her aboard the train. She was a bit white, but game, with her head uplifted and her lips smiling at Larry, and when they had gone several stations she said:

"Did you see that young man in gray? I—I know him. He's often in our store. He's a salesman."

"Yes," said Larry pleasantly. "Seems to be what we used to call up home sort of spruce looking."

She laughed, and shook her head. "I don't know. I don't like that sort. Seems nice to meet somebody, real somebody like home folks, don't you know? New York's so strange, you almost lose yourself in it."

"You have to keep fearfully busy so you don't get homesick," he laughed down at her. "That's the way to win in anything—you just hang on."

She looked up at him admiringly, her eyes sparkling with interest—looking until something in his own blue eyes brought the color to her face.

"Mother said she'd like to meet you," she said shyly. "If you're not too busy Sunday evening—"

"I'm not," Larry broke in buoyantly. "But don't be too nice to me or I'll be glad you tumbled that first night."

The wind swept around the corner as they came to the street and she bent to face it, her muff pressed close against her face, her eyes full of a new light.

"I'm awfully glad," she said softly. "What funny little things kind of kind of change lives around, don't they?"

"They are not funny little things," Larry whispered, holding her for a minute at her door. "They are glimpses at the great machinery. Can't you try to believe that it just had to be, preordained and all that—you to tumble and me to pick you up and he to go by with that other girl—"

"Oh, then you saw him," she was not angry, only anxious as she looked up at him.

"You don't mind now, do you?"

"I don't mind," she whispered, leaning away from his reaching hands into the vestibule. "Good night, Larry."

And Larry stood alone facing the wind, his hands deep in his coat pockets, all the glory of love's surety in his eyes. He had found Only Her, the Real and Only Girl.

Effective March 1, the price of the Chalmers Six-40 will be \$1450 f. o. b. Detroit. This is an increase of \$100 over the present price. It is made necessary by the sharp rise in cost of raw materials.

Aluminum which sold for 19 cents a pound only a few months ago now brings 53 cents.

Copper has risen from 14 cents to 24 cents.

Vanadium Steel a year ago brought \$1.85 a pound. Now it sells for \$3.50.

High-Speed Steel formerly at a \$1.05 a pound now is worth \$3.35.

Leather formerly 20 cents a foot now brings 33 cents. And so on.

All told, it costs \$118.22 more in raw material to build the Six-40 than it did some months ago. As this amount is considerably in excess of our net profit per car, only two courses were open to us.

One was to raise the price.

The other was to lower the quality.

To follow the latter course meant a "one-year" car. This kind of an automobile Chalmers has never built and never will build.

Therefore, a rise in price was the only procedure possible.

We regret that an increase in price is necessary, but we feel that other manufacturers of automobiles will be forced either to increase the price or use a lower grade of materials.

For it is not possible to buy superior products in the open market at any less price than Chalmers pays.

We think it only fair to those who have planned to purchase the Six-40, and have been quoted the \$1350 price, to take this opportunity of saying that we will accept orders at that price up to midnight February 29. Thereafter the price of \$1450 f. o. b. Detroit will prevail.
